Treat Your Customers to Self Service!

Does your customer support solution make you scream for your mummy? Has it turned into Frankenstein's Monster from too many unintegrated applications?

Escape the graveyard of abandoned calls.
Banish the horror of answering routine requests.
Drive out tickets opened for a previously resolved issue.
You don't need a seance.
Just ask the living for a demonstration at [PhaseWare, Inc.](#)

PhaseWare leads you into the light in an online vision of our [Self Service Center](#) application

With Self Service Center, your customers can haunt your support desk at any hour without frightening a soul. They can:

- gather in forums to share enchantments
- search the knowledge base without the need for torches
- summon new downloads...

...and other spooky things.

With assisted knowledge base search, self service center subscriptions, self service incident entry and tracking, and many other magical features, PhaseWare lets you rest your weary bones until truly needed.

Come to the PhaseWare Haunted Mansion and take a tour of our
[Self Service Center](#)
or ask for a live demonstration at our website.

The incantation is [PhaseWare Demo](#)
How about a visitation? (Black cats optional)

No Tricks. We Promise.
